**Blue Shield 65 Plus Choice Plan (HMO)**

**Formulary Updates:**

The enclosed table lists the changes made to your formulary such as removing or adding: a drug, prior authorization, quantity limits or step therapy as well as any changes to a cost sharing tier. The table also includes alternative drug(s) if applicable.

**Abbreviation Key:**

| Symbol | Name | Description |
|---|---|---|
| **LA** | Limited Access | This prescription may be available only at certain pharmacies. |
| **PA** | Prior Authorization | Coverage for this prescription requires prior authorization from Blue Shield. Call Blue Shield to provide the necessary information to determine coverage. Some drugs may require Part B or Part D coverage determination, based on Medicare coverage rules. These drugs are noted with "PA – Part B vs. D Determination" |
| **QL** | Quantity Limit | This medication has a dosing or prescription quantity limit. Maximum daily dose limits are defined by the FDA and listed in the drug package insert. Other quantity limits encourage consolidated dosing when possible. |
| **ST** | Step Therapy | Coverage for this prescription is provided when other first-line or preferred drug therapies have been tried (step therapy). |
| **NDS** | Non-Extended Day Supply | Medication is NOT available for long-term supply. |
| **EDC** | Enhanced Drug Coverage | This prescription drug is not normally covered in a Medicare Prescription Drug Plan; however, Blue Shield covers this drug as a supplemental benefit. The amount you pay when you fill a prescription for this drug does not count towards your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving extra help from Medicare or Social Security to pay for your prescriptions, you will not get any extra help to pay for this drug. |
| **VAC** | IRA Vaccine $0 | Our plan covers most Part D vaccines at no cost to you, even if you haven't paid your deductible. Call Customer Service for more information. |

| | | |
|---|---|---|
| **INS** | Covered Insulin | You won't pay more than $35 for a one-month supply of each insulin product covered by our plan, no matter what cost-sharing tier it's on, even if you haven't paid your deductible. |

| **Drug Tier Key** |
|---|
| **Tier 1:** Preferred Generic Drugs |
| **Tier 2:** Generic Drugs |
| **Tier 3:** Preferred Brand Drugs |
| **Tier 4:** Non-Preferred Drugs |
| **Tier 5:** Specialty Tier Drugs |
